Participation in math pre-course  
Participation in programming pre-course  
Participation in OwO

---

---

## Preparation for the first semester

---

Register for modules in TUCaN (according to plan: EILSs, FOP, Math I, DT, AFE (B.Sc.))<sup>2</sup>  
Register in the computer science Moodle for the above modules as well (they may not appear until shortly before the start of the semester).  
Create timetable for the semester

---

---

## At the beginning of the semester

---

Select exercises<sup>3</sup>  
Select mentor or appointment (B.Sc.)  
Find other commilitons for learning and group deliveries

---

---

## During the lecture period

---

Attend lectures and exercises  
Perceive mentoring meetings (B.Sc.)  
Pay attention to deadlines (e.g. for submissions or registrations)

---

---

## After the lecture period

---

Study for exams

Write exams

Participate in the FOP project (if registered for the module) (B.Sc.)

---

---

1 Useful to avoid having to pay high guest prices in the canteen, instructions on the [HRZ website](#).

2 Important: Registration not only for the module, but also for the lecture. The modules may also not be registered as "additional courses", more details are explained in the OwO.

3 It should be noted whether the choice via TUCaN or Moodle is valid. More details will be given in the lecture.
